University of California Agriculture and Natural Resources

AREA SUBTROPICAL HORTICULTURE ADVISOR Serving Riverside and San Diego Counties

Across California, the University of California's division of Agriculture and Natural Resources (UC ANR) is an engine for problem solving. Serving as the bridge between local issues and the power of UC research, our more than 300 campus-based specialists and county-based advisors work as teams to bring practical, unbiased, science-based answers to Californians.

We seek an academic advisor to conduct a multi-county-based extension, education and applied research program in tree crops production and marketing.

We seek an advisor who is:

- An innovative researcher, who can develop an applied research program, evaluate programs, and report
 accomplishments, results, and potential or actual impacts to scientific and lay audiences;
- An educator, who can facilitate interactions and information exchange among campus based academics, CE advisors and community stakeholders;
- A collaborator, who can develop partnerships and leverage resources to address emerging production issues
 in subtropical fruit crop including: horticulture, entomology, plant pathology, integrated pest management,
 plant nutrition and variety testing
- A visionary, who can complement UC ANR's Strategic Vision, optimizing opportunities for conducting outstanding research and extension programs that meet the needs of Californians.

For information about UC ANR, the rich breadth of program scope and delivery, and how we are making a difference in California, candidates are invited to visit our Web at: http://ucanr.edu/

Riverside County, the headquarters for this position, is located in Southern California in Moreno Valley, about 70 miles east of Los Angeles. With a direct link to the research base of the University of California, Cooperative Extension continues to meet the dynamic needs of Riverside and San Diego Counties. Please visit: http://ceriverside.ucanr.edu and http://cesandiego.ucanr.edu for more information about county programs.

This position is an academic career-track appointment; a minimum of a Master's Degree is required, though other advanced degrees are encouraged, in disciplines such as horticulture, plant pathology and entomology or a related field.
