

# North American Physical Sciences Research Forum Virtual Event 11/30 - 12/4/20

BASF invites Ph.D. students and academic postdoctoral researchers to apply for the North American Physical Sciences Research Forum.

The Research Forum offers a unique opportunity for young scientists to gain insight into the chemical industry and learn about how to apply their physical sciences (chemistry, materials science, chemical engineering or related data science) postgraduate academic experience in R&D, technology, marketing or production.

This year's Forum will be held virtually on Monday, November 30th – Friday, December 4th. The approximate time commitment will be 12:00pm-5:30pm EST daily.

For more information, including qualifications for applying, please [click here](#). Applications, including a letter of recommendation from your advisor *and an abstract of the PhD Thesis (max. 1 page)* are due by **Friday, September 18, 2020**.

*Permanent work authorization in the US is a requirement to apply for this opportunity.*

Interested? [Click here for more information and to apply](#). We hope to see you there!
