

# OWENS CORNING GRADUATE OPPORTUNITIES

## Graduate Student & Postdoc Industry Recruitment Fair

**Be Part of Our Difference**

### WHO WE ARE:

At Owens Corning it's our people that make the difference. We foster an inclusive environment where all Owens Corning employees are heard and appreciated for the value each distinct voice brings to the team. Each employee has the opportunity to share their unique perspectives, learn from one another and maximize the potential of a global workplace.

### OWENS CORNING GRADUATE OPPORTUNITIES

#### Science & Technology Intern

Our interns are provided with the right support and resources to drive and impact the business goals at Owens Corning. As a Science & Technology (S&T) Intern, you can expect challenging assignments that leverage and broaden your engineering and science expertise. The experience will provide opportunities to work with high profile teams to drive our company's top growth initiatives. These initiatives pave the path to our future and we're counting on your leadership and perspective to ensure we deliver.

#### Minimum Qualifications for the internship program:

- Actively pursuing a Ph.D. or M.S. in Chemistry; Materials Science & Engineering; Mechanical Engineering; Chemical Engineering; Physics or related science/engineering field
- Demonstrated technical knowledge with the ability to generate creative solutions
- Self-motivated and eagerness to lead projects or take initiative
- Thrives in a stretch assignment/challenge
- Strong problem solving and listening skills

#### Science & Technology Leadership Development Program

The full-time Science & Technology Leadership Program (STLP) provides you with a powerful development journey as well as the opportunity to make a significant business impact. As an STLP in the three-year program, you will rotate through three 12-month key experiences. Throughout the program, you will be focused on delivering business results by solving complex technical challenges that lead to new business growth, improved product performance, significant cost reductions, and/or process improvements.

#### Minimum Qualifications:

- Ph.D. or M.S. in Chemistry; Materials Science & Engineering; Mechanical Engineering; Physics; Chemical Engineering; or a related science/engineering field
- Demonstrated technical knowledge with the ability to generate creative solutions
- Models curiosity and growth mindset
- Self-motivated and eagerness to lead projects or take initiative
- Preferred business experience through co-ops/internship or direct work experience
- Provides a strong technical point of view to helping customers win
- Broad cross functional collaboration with sales, marketing and operations teams
- Create and execute technical strategy across a range of different projects to expand or differentiate OC in the marketplace
- Leverage internal and external laboratory networks to accelerate development and decision making

#### Roles in the Science and Technology Programs (Intern and Leadership Development) will include:

- Work on products and projects with a positive global impact
- Personal growth and networking opportunities through group activities and events
- Connect with key members of the Senior Leadership team with opportunities to present projects and receive personalized feedback
- Opportunity to evaluate the company for full-time employment
- Project specific training

## Location of Assignments

The Internship Program and Science and Technology Leadership Development Program assignments are located at the Owens Corning Science & Technology Center in Granville, OH.
