

October 16

**OCTAGON EARTHWORKS*
125 N. 33RD ST., NEWARK OH
SELF-GUIDED TOURS AVAILABLE
DAYLIGHT TO DUSK**

**2 P.M. GUIDED TOUR
with Associate Professor John Low, PhD,
director of the Newark Earthworks Center**

The Octagon State Memorial is one of the most spectacular surviving remnants of the Newark Earthworks. Displaying a sophisticated understanding of geometry and astronomy, the Octagon is connected to a perfectly circular enclosure 1,054 feet in diameter. It is a National Historic Landmark that is on track to become a World Heritage site!

** Masks are no longer required but please continue to practice social distancing wherever possible.*
