Platform Management

- **Applications:** Provide a single integrated set of management services for libraries to improve visibility and efficiency, including services from OCLC, partners and libraries

- **Web services**: Make library data available to libraries and partners to build and share new services and applications, creating new value for libraries and their users

- **Data:** Expand the range and types of library data represented and "connected" through WorldCat data hub

- **Infrastructure:** Enable libraries to benefit from the efficiencies and flexibility of cloud, mobile and social technologies through a single global infrastructure

Infrastructure
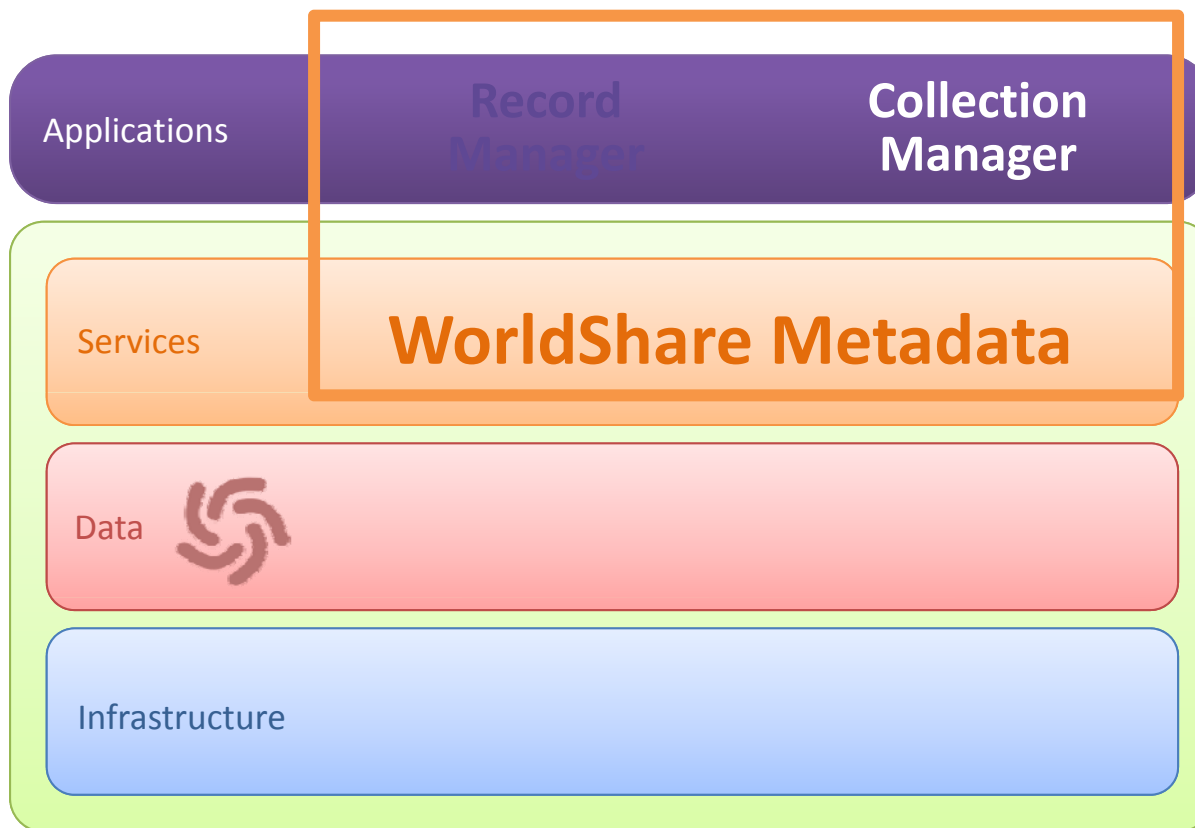

- **Manage metadata on physical, electronic, and digital collections of records**
- **WorldCat holdings maintenance**
- **MARC record delivery with custom editing options to supply data to discovery interfaces**
- **Automatic update and delete notifications as collections change**
- **Detailed reports**

OCLC WorldShare Metadata Collection Manager

- WorldShare Metadata Collection Manager **automatically** delivers **WorldCat MARC records** for all of your **electronic materials**.

- The service ensures that the **metadata and access URLs** for these collections are **continually updated**.

- Your users get **better access**, your staff **gains time** for other priorities, and you see **improved return** on the investments you have made in your collections.

- WorldShare Metadata Collection Manager is the ideal solution for **streamlining workflows** while managing increased **user demand for e-content**.

RDA and OCLC

RDA in WorldCat

- New policy became effective March 31, 2013

  - Announced January 11, 2013

    http://www.oclc.org/en-US/rda/new-policy.html

- Origins of the policy

  - OCLC discussion paper: *Incorporating RDA Practices into WorldCat*

  - Member libraries' comments on that paper

  - Program for Cooperative Cataloging policy activities

OCLC The world's libraries. Connected.

Key points

- ➤ RDA is not required

  - OCLC member libraries may contribute cataloging to WorldCat using any cataloging code that they are currently using.

- ➤ WorldCat continues to be a master record database

  - One record per manifestation per language of cataloging

- ➤ Policy attempts to look forward to a post-MARC world

- ➤ Policy attempts to balance dual roles of WorldCat

  - A catalog

  - A repository of bibliographic data

Today's topics

- Creating new records

- Working with existing records

- Updating WorldCat

- Training opportunities

- Your questions

Creating new records

New records

Libraries have the choice:

- Catalog using AACR2 (or other cataloging code, e.g. DACS, RAKWB, etc.)

- Catalog using RDA

- Switch when/if ready

New records

- *Don't* put in new record if only difference is choice of cataloging code

- New records are acceptable if only difference is choice of cataloging language (040 $b)

New records

- If cataloging pre-RDA:
  - Code Desc: "a"
  - 040 $e blank for AACR2, or appropriate value
  - Add GMD (245 $h) as appropriate

- If using RDA:
  - Code Desc: "i" or "c"
  - 040 $e "rda"
  - Do NOT add GMD

New records

- Both RDA and other cataloging codes:

  - Consult the LC/NACO NAF (if cataloging in English)

  - Control all controllable headings

  - Preferred order of subfields in 040:
    $a $b $e $c $d

Punctuation & capitalization

- You may enter data in RDA master records with or without ISBD punctuation

- You may enter data in RDA master records following RDA capitalization instructions in Appendix A or following the alternative instruction in Appendix A.1 (and the related LC-PCC policy statement)

Working with existing records

Working with existing records

- Not required to change non-RDA master records to RDA

- Do not change RDA master records to another cataloging code

Working with existing records

- You may upgrade AACR2 master records to RDA:

  - You can upgrade a record with any Encoding Level

  - Do so with the "piece in hand"

  - Examine and adjust the entire record

- When upgrading a record to RDA or adding a new RDA record, preferred order of 040 subfields is:

  - $a $b $e $c $d

  - Remember to add "$e rda" to the 040 field

Working with existing records: Hybrid Records

- You may add RDA elements to non-RDA master records without recoding to RDA

- These will then be considered hybrid records (records not coded RDA, but having some RDA elements)

- OCLC's policy lines up with the PCC hybrid records policy:

http://www.loc.gov/aba/pcc/rda/RDA%20Task%20groups%20and%20charges/PCC-Hybrid-Bib-Rec-Guidelines-TG-Report.docx

PCC hybrid charts

- Monographs:
  http://www.loc.gov/aba/pcc/rda/PCC%20RDA%20guidelines/Hybrid-Guidelines-Monographs-Post-Impl.docx

- Serials:
  http://www.loc.gov/aba/pcc/rda/PCC%20RDA%20guidelines/Hybrid-Guidelines-Serials-Post-Impl.docx

- Integrating Resources:
  http://www.loc.gov/aba/pcc/rda/PCC%20RDA%20guidelines/Hybrid-Guidelines-IRs-Post-Impl.docx

Editing non-RDA records

Add relator terms --- Examples:

- 100 1 Webster, Christy, **$e author.**

- 100 1 Higdon, Jennifer, $d 1962- **$e composer.**

- 100 1 Barden, Christine H., **$e composer, $e author**.

- 110 2   Australian Hydrographic Service, **$e issuing body**.

- 700 1 Masse, Josée, **$e illustrator**.

- 700 1 Ronchi, Zara, **$e photographer**.

- 700 1 Duncan, Ronald, $d 1914-1982, **$e librettist**.

- 700 1 Davis, Colin, $d 1927-2013 **$e conductor**.

- 710 2 Gandalf's Fist (Musical group), **$e performer**.

300 field abbreviations

Spell out forms of abbreviations: Examples:

- 300 1 v. (unpaged) : $b col. ill. ; $c 17 cm.   *becomes:*

- 300 1 volume (unpaged) : $b color illustrations ; $c 17 cm

- 300 1 score (96 p.) : $b ill. (chiefly col.) ; $c 31 cm. + $e 1 sound disc (digital ; 4 3/4 in.)   *becomes:*

- 300 1 score (96 pages) : $b illustrations (chiefly color) ; $c 31 cm + $e 1 audio disc (digital ; 4 3/4 in.)

Statements of Responsibility

Add complete statements of responsibility.   Examples :

• 245 00 Gramsci : $b space, nature, politics / $c edited by Michael Ekers ... [et al.].

Can become one of these two options:

• 245 00 Gramsci : $b space, nature, politics / $c edited by Michael Ekers, Gillian Hart, Stefan Kipfer and Alex Loftus.

• 245 00 Gramsci : $b space, nature, politics / $c edited by Michael Ekers [and 3 others].

Adding 336/337/338 fields

Books example:

336 text $b txt $2 rdacontent

337 unmediated $b n 2 rdamedia

338 volume $b nc $2 rdacarrier

Musical sound recording example:

336 performed music $b prm $2 rdacontent

337 audio $b s $2 rdamedia

338 audio disc $b sd $2 rdacarrier

General material designators

- OCLC will retain GMDs where they exist for a period of 3 years (March 31, 2016)

- If you are editing an existing master record without updating to RDA, leave the GMD

- If you are updating an existing master record to RDA, remove the GMD

The Library of Congress (LC) implemented Resource Description and Access (RDA) on March 31, 2013. From this date forward, all newly-created catalog records created at LC are being produced according to RDA instructions.

While OCLC is not the governing authority for the new Resource Description and Access standards, we are supporting their implementation in WorldCat, and working to help our members understand them. Below are links to resources to guide you as you learn more about RDA.
