## **Medical Physicist Position – Permanent Full Time**

### **About The Organization**

JF Medical Physics Inc. has a mission to ensure all patients receive the same high-quality care in diagnostic imaging and nuclear medicine. We aim to achieve this by working with both diagnostic imaging and nuclear medicine facilities to offer our knowledge and expertise as it relates to image quality and radiation safety management services. The company was founded in 2017 and continues to grow strong with excellent customer retention and expansion. We have a commendable reputation as going “above and beyond” while being efficient and independent.

### **About The Position**

JF Medical Physics Inc. is proud to offer a permanent full time Medical Physicist position within our organization starting ASAP. You will be based in the Greater Toronto and Hamilton Area (GTHA) however will cover facilities not only in this area, but other parts of Ontario and Canada as well on occasion. The sites you will cover compromise both hospitals and clinics across all diagnostic imaging X-ray modalities. There will be a significant amount of travel (mostly driving and sometimes by air). Depending on your qualifications and experience, MRI and nuclear medicine support may be added to your scope of work. You will also be able to work remotely from your home when not on-site at a facility, which allows some flexibility in scheduling on-site visits.

### **Qualifications**

#### **a) Mandatory**

- Permanent Resident of Canada, Canadian Citizen, or US Citizen
- Board-eligible in diagnostic medical/radiological physics per current American Board of Radiology (ABR) or Canadian College of Physicists in Medicine (CCPM) requirements
- Has worked as a physicist with diagnostic imaging facilities for at least the last two years
- Eligible to obtain (or has) a valid Class G Ontario driver’s license
- Able to lift up to around 50 lbs
- Able to perform effectively as a multidisciplinary health care team member
- Strong verbal and written communication skills in English

W: [www.jfmedphys.com](http://www.jfmedphys.com)

- Strong decision-making and time management skills
- Has “soft skills” relating to customer service
- Shows initiative and takes accountability and responsibility

b) Preferred

- Residency program completion in diagnostic medical physics
- Currently board-certified through the ABR in diagnostic medical physics or CCPM in diagnostic radiological physics
  - o dual board-certification in a diagnostic imaging and a nuclear medicine physics discipline is strongly preferred
- CCPM certified in Mammography Physics or meeting MQSA Physicist qualifications

Salary and Reimbursements

You will be paid both a base salary and a bonus percentage of the company’s gross profits yearly. Your base salary will start in the mid-high \$100 000 range (depending on initial qualifications/experience) and will increase 2%-5% per year. By year five with the company, you can likely expect to make approximately \$200 000 - \$250 000 total compensation.

Mileage reimbursement will also be provided for any travel, including hotels, meals, etc.
