

ASEV-ES Presents “Hang Time” Grapevines to Wines

2024 Schedule

Hello, the American Society for Enology and Viticulture-Eastern Section invites you to participate in our second year in relevant industry discussions. During the monthly “Hang Time” sessions, (11:30-12:30 EST) University or Industry representatives will give updates on timely topics related to viticulture and enology fields. This is our way share the wealth of knowledge in our Society and to network within our growing wine industries. During each session attendees can will have the opportunity to ask questions and join the conversation of the panelist. If the information shared is relevant to your organization, then we’d love to invite you to our annual conference which will be in Cleveland Ohio in July. You can also find more information about membership at our website

Reminders will be sent out monthly through the ASEV-ES Facebook page (<https://www.facebook.com/ASEVEasternSection/>) as well as sent through our membership listserv. Please use this QR code or Link to sign up for one or all of the sessions. The same link will be used throughout the year. Sessions will fall on the second Thursday of every month. Please see the schedule on the next page!

Registration Link or use the QR Code with your smart phone.
