

The Wayne National Forest is located in southeastern Ohio. Ohio ranks 7th among states in population and 45th in public lands per capita. This scarcity of public land creates intense competing demands for the Wayne's limited resources.

3 Management Units (241,116 ac):
Athens Ranger District (2 Units)
 •Athens (Hocking, Perry, Athens, Vinton, Morgan)
 •Marietta (Monroe, Washington)
Ironton RD (Lawrence, Scioto, Gallia, Jackson)

Habitat-Based Land & Resource Management Plan

- Providing a Variety of Habitats for Animals and Plants (using Mgt Areas)
- Maintenance and Restoration of the Mixed-oak Ecosystem
- Control of Non-native Invasive Species
- Vegetation Management Tools
 - Timber harvest
 - Prescribed fire

Early Successional Habitat

Mid Successional Habitat
