

1. **Title:** Bat Research Technician
2. **Salary:** \$9.37 per hour
3. **Duration:** May through August 2017 (exact dates to be determined; not to exceed 12 weeks)
4. **Job summary:** The University of Georgia, Warnell School of Forestry and Natural Resources (<http://warnell.uga.edu/>) is offering two full-time seasonal positions working with bats for summer 2017. The employees will be working with a graduate student studying cave-dwelling bat species in North Georgia. Activities will include, but are not limited to, mist-netting bats, acoustic sampling, bat roost searching, radio-telemetry, habitat characterization and data entry. Housing and transportation will be provided while in the field, but selected applicants must provide their own transportation to the University of Georgia campus.
5. **Education and experience:** Applicants must have some college-level coursework in ecology, wildlife biology, or a related field. Applicants should be comfortable performing data entry and other computer-based work. A valid class C driver's license is required.
6. **Preferred qualifications:** Preference will be given to individuals that have current rabies pre-exposure prophylaxis and have experience with bat mist netting, ID techniques and radio-telemetry. Some experience using a GPS is also preferred.
7. **Physical demand:** Applicants should be in good physical condition and be able to work at night and in hot, humid field conditions where encounters with snakes, biting insects, etc. are possible.
8. **Breakdown responsibilities:** 90% time performing field research; 10% time performing data-entry or other computer-based work.
9. **How to apply:** E-mail a cover letter, resume, and contact information for three references to John Grider (john.grider26@uga.edu). Applications will be accepted until positions are filled
