

One Afternoon: Infinite Possibilities

Julia Robinson
Mathematics Festival

Sunday, May 4, 2014

12pm to 3pm

COSI Gallery I

For 5th to 9th students

Julia Robinson Mathematics Festival inspires students to explore the richness and beauty of mathematics through activities that encourage collaborative, creative problem-solving.

The festival is a celebration of great ideas and problems in mathematics. We will have dozens of rich math problems and activities led by our volunteers, who are lovers of mathematics from different disciplines, including mathematicians, teachers, engineers, programmers, graduate students, and more.

Columbus Ohio's first Julia Robinson Math Festival is hosted by Enrich Columbus, a non-profit dedicated to helping parents find the best enrichment opportunities.

Price: \$10 per student (supervising adults free). COSI admission paid by sponsors.
