

JOIN US FOR A SUMMER CONFERENCE!

Ervin Educational Consulting is offering two conferences this summer:

Kid Whisperer University

August 1-3, 2018

Scott Ervin, The Kid Whisperer, will teach you The Nine Essential Skills for the Love and Logic Classroom™ including how to neutralize argument, delay consequences, utilize empathy, utilize the recovery process, build positive relationships, utilize choices to prevent power struggles, utilize enforceable statements, utilize quick and easy interventions, and guide kids to own and solve their own problems.

These strategies are simple and get results. They are applicable for both teachers and parents! **This is an Ohio Approved training. Additionally, participants can earn one Graduate Level PD credit through Brandman University.

Calm/Assertive Academy

July 23-25, 2018

This three-day conference will teach educators procedures and strategies for building relationships with kids (no matter how tough they are), creating ownership of the classroom, and for sharing control with students on your terms so they don't try to take it on theirs. These procedures will have consequences for kids who do not follow the procedures woven into the fabric of the procedure itself. The conference will be hands-on and interactive. In short, you will walk out of this conference with lesson plans for the first three weeks of school that will set the stage for a successful school year!

"This workshop was life-changing as a mother and as a teacher." -Amanda, Xenia, Ohio

"If you ever have an opportunity to attend a training or seminar, you should take it!" -Kelly, West Alexandria, Ohio

Which conference should I attend?

Calm/Assertive Academy (for educators)

Kid Whisperer University (for educators and parents)

Calm/Assertive Procedures™:

1. Relationship-Building Procedures
(ESPN Greeting and Goodbye, Team Creation, Nickname Ceremony, etc.)
2. Control-Sharing Procedures
(Student-led meetings, transitions, workshops, etc.)

Love and Logic™ Skills:

1. Neutralizing Argument
2. Delaying Consequences
3. Utilizing Empathy
4. Utilizing the Recovery Process
5. Building Positive Relationships
6. Utilizing Enforceable Statements
7. Utilizing Choices to Prevent Power Struggles
8. Utilizing Interventions
9. Guiding Children to Own and Solve Their Own Problems

A calm, consistent, loving environment where adults can elicit pro-social behaviors from children in any situation.

Thousands of educators and parents have attended Scott's workshops and trainings nationwide. We look forward to meeting you at our next conference!
