

The Society for Women in Physics presents:

# Dr. Carol Sabourin

Monday, Oct. 10 at 4pm

in the Smith Seminar Room

Light appetizers provided

Dr. Carol Sabourin is a Senior Research Leader at the Battelle Memorial Institute and Chief Scientist for Biomedical Research in the Battelle Life Science Research Global Business. She will be discussing the role of scientists in a research institute like Battelle and presenting her research on identification of biomarkers for chemical and biological agents and host immune responses for infectious diseases.
