

Message regarding the University and Departmental response to COVID-19

Category: General Information - #8

Date: March 25, 2020

The number of updates today is down significantly from last week and even recent days. Perhaps we are settling into a new steady state. There are a few items I want to bring to your attention and those are listed below. In addition, I have included some standard resources at the bottom for quick reference.

General:

- Past departmental messages are kept in a Box Folder for easy retrieval:

- **Please remember to share your instructional experience with your instructional Points of Contact – we want to know how things are going.**
- The rollout of WorkDay has been delayed six months due to the current efforts around COVID-19.

Technical Issues:

- Some people have had issues with Zoom meetings dropping after 40 min. There is an ASCTech Knowledge Base article about addressing this problem:

- Avoiding “Zoombombing” -- the Office of Distance Education and eLearning recommends following [these instructions](#)

Resources: (I will keep these as standard footnotes. Note: Some are being updated on nearly a daily basis.)
