Join us and attend the [“Growing Your Dream” Aquaponics Basic Technology Seminar](#) **March 7-9, 2014**, emphasizing the basic implementation of your own Aquaponics System, with information on starting a commercial system. Topics include: Status of Aquaponics, Guidelines, Water Quality, Lighting, Pest Management, Tilapia Production, Plant Production, UVI System Design & Management and more. A presentation on the construction of our Urban Aquaponics farm and breakout sessions will be included on plants & fish in your course (see agenda for more information). A tour of our facility with hands-on participation is a supplement to your classroom education.

Aqua Growers, LLC is an Urban Aquaponics Farm & a State Licensed Aquaculture Facility consisting of 1,056 sq. ft. of raft style grow beds, media beds, & fish tanks for breeding, fingerling rearing & grow-out of tilapia, located within a warehouse in Livonia, MI. We are dedicated to local, sustainable, & nutritious food production & to educate the community as well. Aqua Growers uses innovative raft design sizes to maximize production & incorporates creative engineering, lighting, & numerous energy saving elements. You don't want to miss this seminar! We look forward to having you join us! Vendors will also be on hand!

With Charlie Shultz
Formerly of University
of Virgin Islands

Presented By:
Jim Gill, President
Ken Chio, CFO
Aqua Growers

Location:
12089 Merriman Rd
Livonia, MI 48150
Airport:
Detroit Metro Airport
(within 15 miles)

Bio of Mr. Charlie Shultz: Mr. Shultz earned two B.S. degrees, Biology and Fisheries Science, from Virginia Polytechnic Institute and State University in 1996. He has recently completed his graduate coursework and research on indoor lighting options for aquaponic food production and is expected soon to receive his M.S. degree in aquaculture from Kentucky State University. Mr. Shultz worked as a tilapia broodstock manager & laboratory technician at the Virginia Tech Aquaculture Center & as an aquaculture research analyst for 14 years at the University of the Virgin Islands (UVI) Agricultural Experiment Station where he specialized in Tilapia production in Aquaponic and Biofloc culture systems. Currently, Charlie serves as the Aquaponics Researcher at Lethbridge College in Southern Alberta, Canada. He authored or co-authored more than 20 papers (journal articles, publications in conference proceedings and popular articles) and has given more than 50 presentations at conferences and workshops across the U.S., throughout the Caribbean, and many other countries including Mexico, Singapore, New Zealand and United Arab Emirates. Mr. Shultz co-taught the UVI International Tilapia Aquaculture and Aquaponics Course 14 times and has co-taught intensive short courses in Puerto Rico, Arizona, Michigan, Tennessee, North Carolina, Singapore, Ontario, Alberta and British Columbia. Since 2006, he has served as an independent inspector for USDA organic certification (crop production).

Aqua Growers presents:

Growing Your Dream 3-Day Aquaponics Basic Technology Seminar

March 7-9, 2014 9:30 am to 4 pm

Agenda

- Welcome and Introductions*
- Status of Aquaponics*
- Guidelines for Aquaponics*
- Aqua Growers Introduction & Presentation on Construction*
- Tour of Facility*
- Water Quality – Breakout Session (various water quality & pH Testing)*
- Lighting Technology*
- Integrated Pest Technology*
- Tilapia Production*
- Plant Production (breakout session seeding, media, seedlings, transplanting, harvesting)*
- UVI System Design & Management*
- Breakout Session Fish (anatomy, sexing, feeding breeding, fingerlings, grow out, harvesting)*
- Fish Production*
- Final Tour of Facility & Questions*
- Vendors*
