

Ohio Aquaculture Association Announces

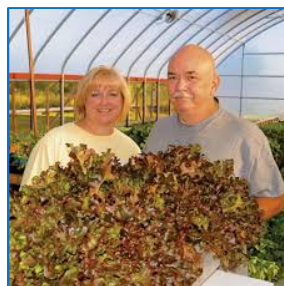

Aquaponics Workshop **Friday, March 10, 2017**

The 2017 OAA Spring Workshop will cover Aquaponics, the fastest growing segment of aquaculture and agriculture. A variety of topics will be covered, including aspects of fish and plant management, water quality, and marketing.

Charlie Shultz, world renowned aquaponics expert, will headline our line-up of morning speakers. Jeni and Doug Blackburn, owners of Fresh Harvest Aquaponics Farm, have graciously opened their farm to afternoon technical, informative tours led by the Blackburns, Charlie Shultz, and others.

Whether you are thinking about aquaponics or just starting, this is a must attend workshop!
