ALLENTOWN EQUIPMENT INVENTORY

All of the following equipment is new, and in most cases stored within the containers in which they were originally shipped. Original retail pricing for some items is listed ... Savings of as much as 50% will be provided.

- 2 - 501 Hydrotech microscreens
- 7 - 801 Hydrotech microscreens (crated)
- 1 - 801 Hydrotech microscreen (mounted on fiberglass skid with high pressure pump)
- 7 - 803 Hydrotech microscreens (crated)
- 2 - 15,000 sq. ft. (7.5' diameter) Rotating Biological Contactor (floating/waterwheel driven)
- 1 - Sparus Pump
- 2 - 6" actuated valves
- 4 - 10' diameter fiberglass tanks
- 1 - 100 gpm Oxygen Saturator
- 1 - Finfish Hatchery System
 - 4 - 6' diameter cone bottom fiberglass tanks
 - 1 - integrated filtration skid
 - a. Polygeyser Bead Filter
 - b. UV sterilizer
 - c. Pump

**501 Hydrotech Microscreens
(\$5000)**

**801 Hydrotech Microscreens
(\$11,000)**

803 Hydrotech Microscreens (\$18,000)

2 - Rotating Biological Contactors
(15,000 sq ft, floating/air/water driven)

Sparus Pump
(with constant flow technology)
(\$1140)

Finfish Hatchery System

4 – 7.5' diameter cone-bottom tanks (@ \$1825)

Water treatment skid:
Polygeyser bead filter (\$2850)
UVHO 150 watt UV sterilizer (\$913)
Magnetic Drive Pump (\$4640)

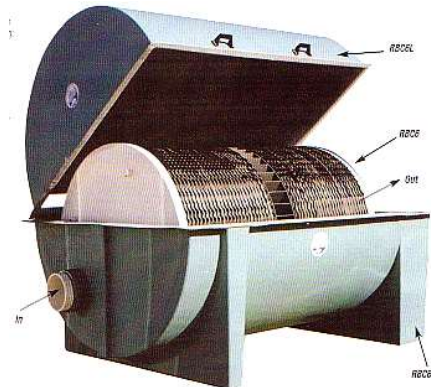

4-Tank Recirculating Aquaculture System

4 - 10' diameter fiberglass tanks
Skidded Oxygen Saturator / Sparus Pump
DO monitoring

Skidded 801 Hydrotech Microscreen w/ high pressure pump (\$700), and 6" actuated valve (\$900)
Sparus Pump with Constant Flow Technology

RBC6000 Rotating Biological Contactor

MISC

OxyGuard Probe

3 - Hayward 4" Bulkhead Fittings

6" - Electrically Activated
Butterfly Valves

1HP Booster Pump
