

EDUTL 5700
Training in Informal Science Outreach
aka the "COSI Course" or the "Language Pod Course"

Dr. Leslie C. Moore
moore.1817@osu.edu
Arps Hall 202B
<https://u.osu.edu/moore.1817/>

Spring 2017
Hours of instruction M 9:30-11:30
Classroom Arps 243
3 credits

Open to graduate & undergraduate students
Cross-listed at Ling 5700 & Psyc 5700
Students may repeat this course

5700 provides hands-on training in informal science outreach at the Center of Science and Industry (COSI @ <http://cosi.org/>). You will work at the Language Sciences Research Lab (<http://bln.osu.edu/LanguagePod.php>), a working linguistics lab inside the museum. You will learn about linguistics research and be trained in how to communicate language sciences information to the public.

You will spend 3 to 6 hours per week at COSI, explaining the language research to visitors, conducting demonstrations about language science, and assisting in recruitment for ongoing research studies. These COSI hours will replace some regularly scheduled classes and will be scheduled at various times in consultation with students and will include some evening and weekend hours.

Following successful completion of this course, you will be able to communicate scientific understanding of language effectively to diverse audiences by drawing on principles and practices of informal science education.

If you have any questions about the course and/or how it might fit with your current research interests and activities, please contact the instructor, moore.1817@osu.edu. Dr. Moore is currently leading research with COSI on improving informal science learning for preschool dual language learners, <http://u.osu.edu/expandingrepertoiresinformalscience/>.
