

DANCE 2190/5190

Flamenco

This course is an open-level flamenco dance class suitable for those of all levels. No previous experience is required. We will engage with both movement practice and flamenco history and theory, learning about this Spanish percussive dance form within its cultural context and as it exists in the diaspora to investigate its multi-cultural origins, problematize issues of gender and race, and explore how contemporary flamenco aesthetics are making waves in the field.
